Global Architectural Achievement - Feb. 2026

“ The February 2026 TSAP newsletter showcases academic, cultural, and social initiatives fostering holistic learning. Highlights include eco-brick and bookbinding workshops, an empowerment seminar, and a session on Mumbai's Art Deco heritage. Social responsibility was reflected through a free eye check-up camp. Study tours and exhibitions emphasized experiential learning. Achievements included institutional recognition, faculty research awards, and student participation in national expos, alongside creative student work and practical site visits.”

In Buenos Aires, Adamo-Faiden designed a green high-rise that blends with its surroundings while standing out. Located downtown, it bridges old and new areas, facing Puerto Madero on one side and Avenida Ingeniero Huergo with the historic civic quarter on the other side.
